Sexual harassment training may have reverse effect, research suggests

Trainings' use of 'cartoonish, unrealistic' examples could be partially to blame for men's subsequent dismissal of allegations, says Berkeley professor

Sam Levin in San Francisco

Sexual harassment courses aimed at preventing workplace discrimination can have the opposite effect, making men less capable of perceiving inappropriate behavior and more likely to blame victims, according to academic studies that cast doubt on traditional training programs.

Reimagining the value of **Compliance Training**

Travis Waugh
Instructional Technologist
Georgia Institute of Technology

What is the **value** of
compliance training?

Traditional compliance training has succeeded in mitigating risk.

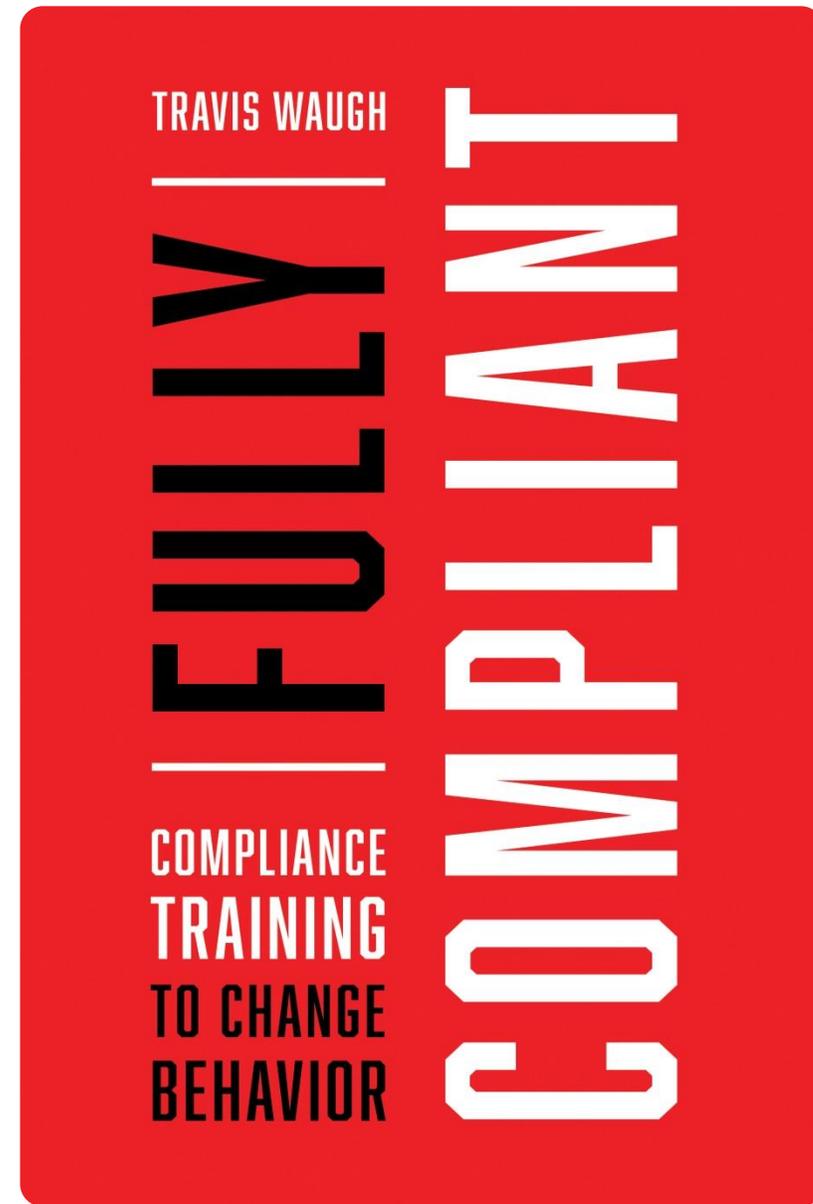

My new book explores how we can retain that value, while also delivering new value for every member of our organization.

With **opportunistic** compliance training, we can change behavior, solve problems, and reduce risk before it happens.

Traditional compliance training has succeeded in mitigating risk.

My new book explores how we can retain that value, while also delivering new value for every member of our organization.

With **behavioral** compliance training, we can influence decisions, solve problems, and reduce risk before it happens.

Oppportunistic

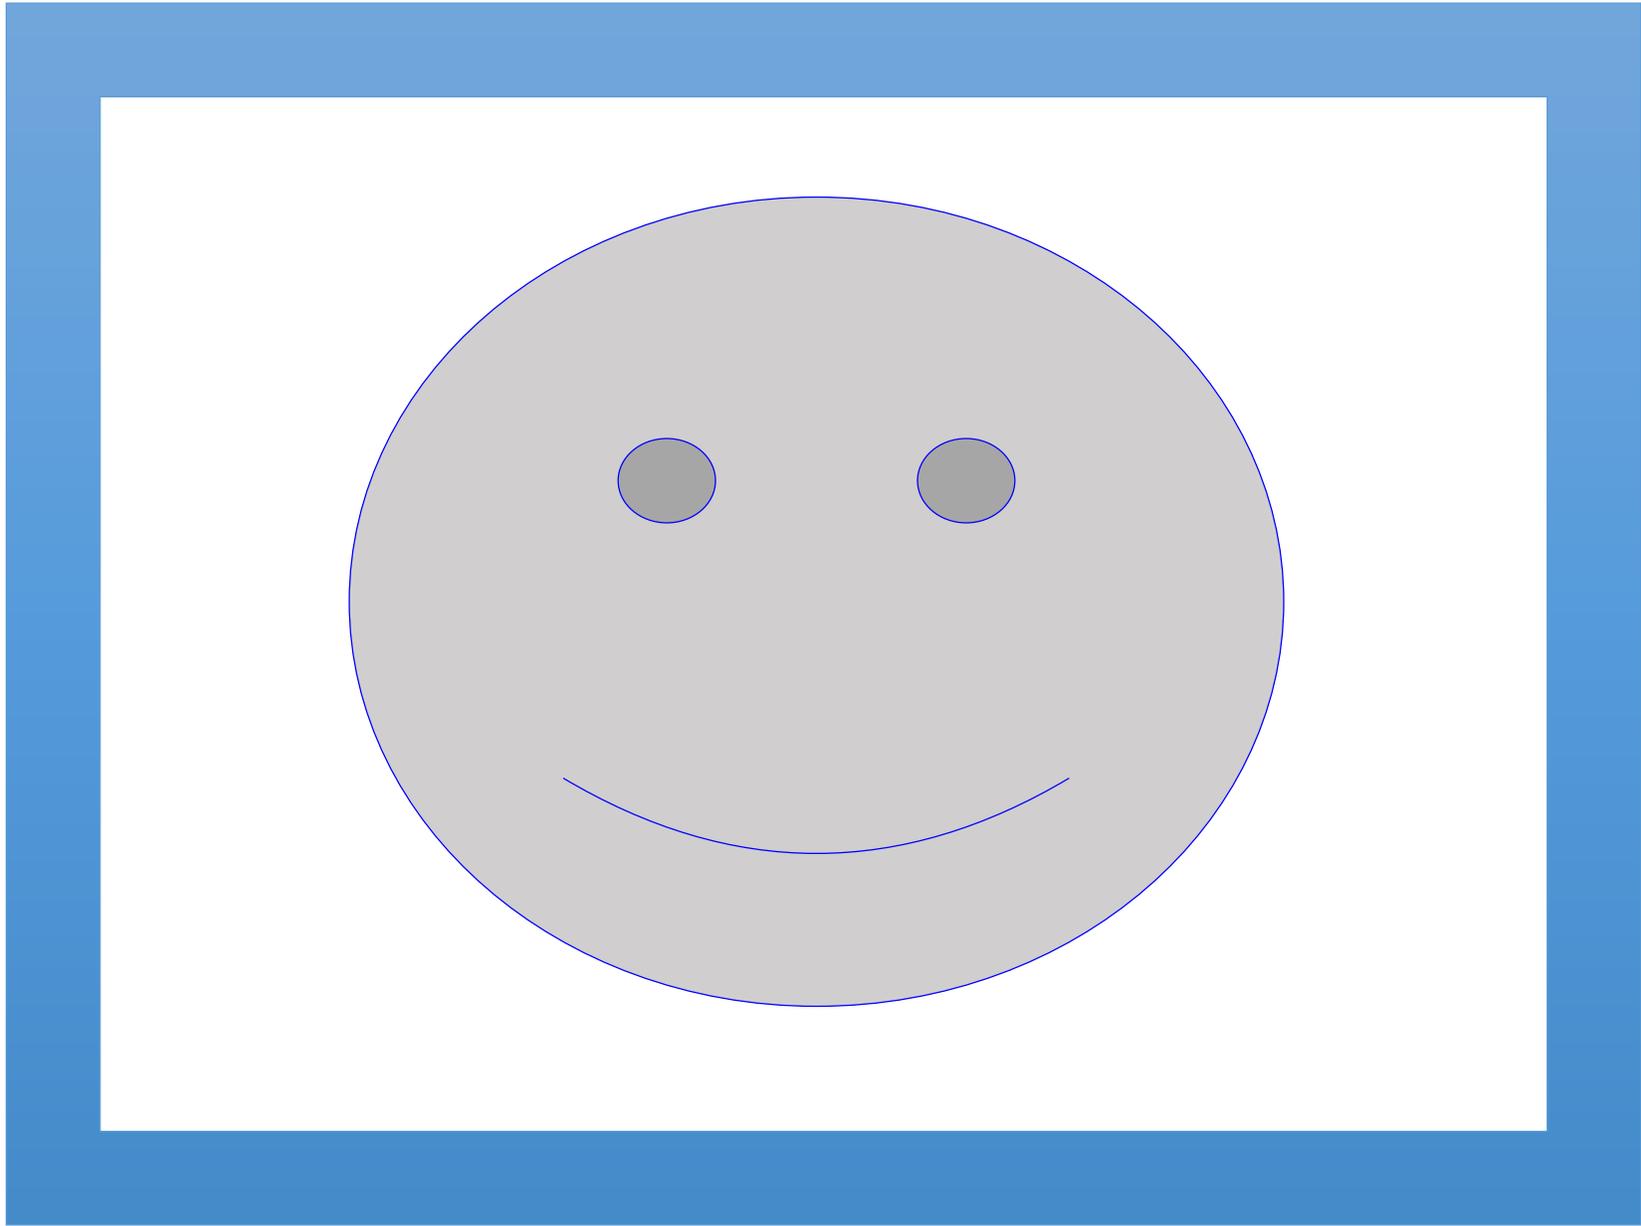

Analysis

And Behavioral

Design

If you ask your employees why your organization has compliance training,
what will they say?

Compliance Analysis Form

SUBJECT TITLE

AUDIENCE

SOURCE
Law or policy #, official guidance source, etc.

CORE REQUIREMENTS
What learning objectives or delivery formats are specifically required by the law or policy to which you are complying?

| | | | |
|---|------------------------------|-----|--------------------------|
| <i>How would you rate these requirements?</i> | STRICT & SPECIFIC | ← → | LOOSE & VAGUE |
|---|------------------------------|-----|--------------------------|

STAKEHOLDERS

| | |
|---------------------------------------|----------------------|
| Subject Matter Experts: | <input type="text"/> |
| Legal Team: | <input type="text"/> |
| Communications Team: | <input type="text"/> |
| Training Manager & Colleagues: | <input type="text"/> |
| Senior Leadership & Project Sponsors: | <input type="text"/> |

SPECIAL REQUIREMENTS
(Varying schedules, audience subsets, additional content identified internally, special tracking requirements, etc.)

RELATED LEARNING NEEDS

Related to this subject area, what real, observable learning needs exist within your organization?

| Desired Behavior Change | Impact | Learnability |
|--|--------------------------------|--------------------------|
| <input type="text"/> | High - Low | High - Low |
| <input type="text"/> | High - Low | High - Low |
| <input type="text"/> | High - Low | High - Low |
| <input type="text"/> | High - Low | High - Low |
| <input type="text"/> | High - Low | High - Low |
| <i>Overall, how would you rate these learning needs?</i> | Real & Relevant ← → | Mostly Irrelevant |

MEASURABILITY

What measures could you use to show whether or not your learning achieves the desired behavior changes listed above?

| | |
|----|----------------------|
| 1. | <input type="text"/> |
| 2. | <input type="text"/> |
| 3. | <input type="text"/> |
| 4. | <input type="text"/> |
| 5. | <input type="text"/> |

ANALYSIS ASSESSMENT

Building on everything you've learned in the analysis phase, in what quadrant would you place this compliance project?

| Learning Needs: | | |
|--------------------------|----------------------|----------------------|
| RELEVANT | <input type="text"/> | <input type="text"/> |
| IRRELEVANT | <input type="text"/> | <input type="text"/> |
| Compliance Requirements: | SPECIFIC | VAGUE |

How do I know which behaviors need to change?

Habit

Intrinsic
Motivation

Culture

Behaviors that are most susceptible to small changes in context, habit, and motivation.

Aim here!

Behaviors that are most relevant to your desired outcomes.

Desire Outcome:
Reduce Smoking Rates

Behavior Objective 1:
Stop first time smokers before
they acquire the habit.

Behavior Map:

[trying a first cigarette]¹

[someone offers a cigarette]^{1a}

[someone accepts]^{1b}

| CONTEXT | HABIT | MOTIVATION |
|--|---|---|
| <p>Set the most available information to your learner in the moment of need.</p> <ul style="list-style-type: none"> • Tell salient stories. • Be everywhere. • Don't stop. | <p>Establish keystone habits the decrease the risk of misconduct in all areas.</p> <ul style="list-style-type: none"> • Build a “report or seek help” habit. • Reinforce the habit in every course. • Elevate the new habit as a focus in and of itself, not just a caveat to a compliance mandate. | <p>Create time and space for self-guided learning and decision-making.</p> <ul style="list-style-type: none"> • Maximize freedom and choice, not proscribed solutions. • Align with existing values. • Create problem-based learning workshops for leaders and roles in key risk areas. |

What does this mean for your
compliance training?

High but Juicy Fruit

Consolidate compliance categories and create a holistic plan that blurs the line between compliance training, communication, and performance management.

Mid-Range Fruit

Begin offering bespoke solutions to high risk audiences, and ensure all your content is aligned with real behavioral needs and compelling behavioral levers.

Low-Hanging Fruit

Add authentic problems, tasks and assessments to existing compliance training tutorials.
