The iorad story.

Idea Moment

As an elearning developer, our founder sat with an expert, learned the process and copy/pasted screenshots all day. Everyday. Painful. Inefficient.

Must be a better way?

iorad is born

Spent 10 years obsessing over two parts of the knowledge loop (capturing & learning). The iorad solution was 10X faster than any tool on the market.

Closing the loop

Built integrations and sharing features that deliver knowledge to where the users already are. Finally closing the organization knowledge loop.

Big Annoying Pains.

Capture

A Knowledge Worker can take up to 2 hours manually documenting a simple 20 step process.

Share

Users waste hours digging through FAQ's, docs, and the intranet trying to find the answer.

Learn

Everyone learns differently. Multiple formats in multiple places *takes massive effort.*

Customer shoutouts:

Brian Sommers

Director of Sales Training

"lorad makes updating our training content a piece of cake, especially in a fast changing environment. I save hours by using their simple screen capture instead of manually editing screenshot like we did in the past."

Rich Adams

Director of Sales Training

"lorad time-to-value is unmatched. You can make and deliver 50 how-tos in the time it takes to make 1 using any other competitor."

Ray Waller

Systems Analyst

"#AMAZING, thank you for giving MANY HOURS of my life back! This tool is so easy, so fast, so user friendly! If you have ever had to make a tutorial, or screen shot steps, you know what I'm talking about. AWESOME."
