Arcades™ is the gamification feature set available in The Training Arcade, that empowers trainers to build virtual learning communities to motivate and engage employees with:

- solo game play and learning activities
- head-to-head and team game challenges
- learning journeys and missions
- achievements
- tangible prizes
- individual and global leaderboards
- robust analytics dashboard

Arcades™ delivers learner engagement and stickiness while providing tremendous data about player usage, knowledge improvement, and behavioral traits.

Arcades will:

- maximize learner engagement
- increase frequency of learners' interaction with content
- improve accuracy and knowledge retention
- make training more fun and effective
