CME CREDITS

FACULTY DISCLOSURES

Welcome to ICL360, a cutting-edge CME course designed to provide a holistic learning experience. Immerse yourself in curated video content sourced from the AAOS Annual Meeting, featuring expert-selected ICL lectures. Enhance your understanding with insightful commentary and comprehensive assessment questions. This all-encompassing course goes beyond traditional learning by offering a complete 360° perspective on orthopedic topics. Explore additional resources, including full-text readings from the *Journal of the American Academy of Orthopaedic Surgeons (JAAOS)*, technique videos from *Orthopaedic Video Theater (OVT)*, and links to external literature and PubMed. Elevate your clinical decision-making skills and gain a well-rounded understanding of essential orthopedic concepts with ICL360.

This course presents an evidence-based approach to the management of first-time shoulder dislocation, with a special focus on diagnosis and intervention in the young athlete.

Assemble courses at scale and quickly make live changes

- Content repository
- Templates and layouts
- Theming
- Publish via API
- Versioning

Build better experiences: Advanced logic and features

- AI-powered Video and assessment
- Conditions/behaviors
- Timers, ID verification
- Sub-portals
- Webhook support

Rich data, reporting, multi-language support, Portals and Syndication

- Analytics, xAPI,
- Webhooks
- Advanced reporting
- Portals and syndication
- Localization to any language

Summary and Thanks

- Better learning experiences with NO upheaval needed
- Implement in a few weeks not months
- Scale to our size of operations and team
- Build the experience you seek with a robust API
- team@authenticlabs.io

Simpatico by Authentic

Authentic is a team of award-winning product developers.

We work where “learning matters” to design and deploy mission critical learning programs.

Our work typically involves deploying our Simpatico Learning Platform to power **immersive**, effective online learning that is **intuitive, data-rich**, and that **fits seamlessly** within the desired systems and **experience**.
