Less than 1 hour

1-2 hours

2-4 hours

4+ hours

POLL: For client work, do you have a single system of record for all work product?

Yes

No

I don't know

# Starting the Move from Chaos to Clarity

# What type of solutions are you using?

File Storage

File Sharing

Communication

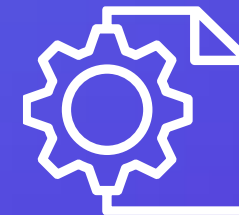

Collaboration

Practice Management

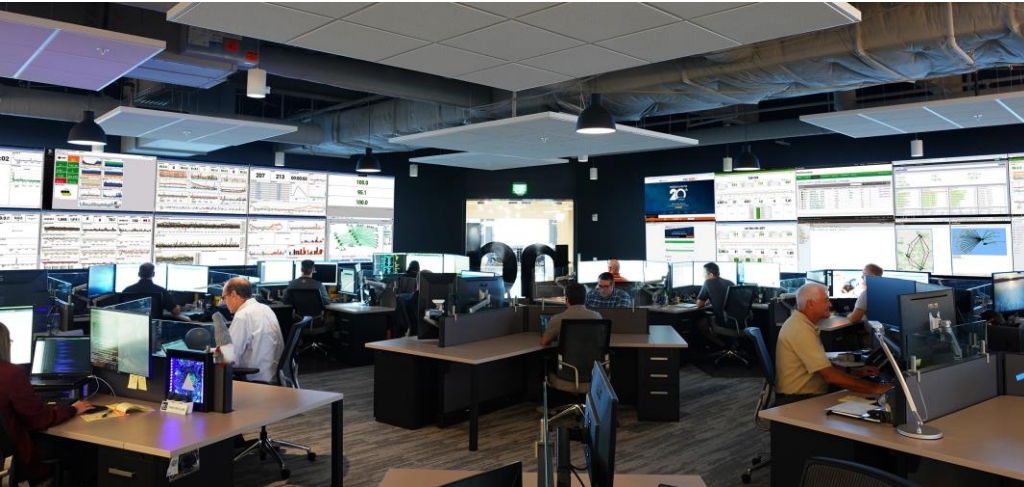

Document Management

# NetDocuments Legal DMS Demo

# Usability: Better Adoption, Increased Security

Because we can track usability, we can see how people are interacting with the platform.

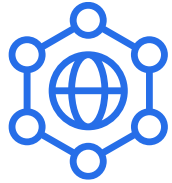

The graph highlights **56+ million data points**.

*User activity over a 5-minute period*

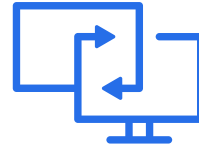

*User activity over 4 hours*

# How NetDocuments Brings Clarity to Your Firm

## Security and Governance

Security & governance are native across the NetDocuments Platform. ISO and GDPR compliant and FedRAMP authorized.

## Version Management

Easily identify the official document, redlines, and history; preview, markup, and make changes simultaneously with colleagues.

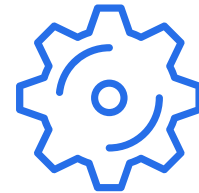

## Robust Search

Save valuable time by quickly finding work product or other critical content. Search by keyword, author, doc type or other criteria.

## Seamless Collaboration

Share and collaborate on content with internal colleagues or external stakeholders within NetDocuments secure environment.

## Familiar Workflows

Built-in tools, seamless integrations with M365, open APIs, and low-code automation enable endless opportunities to streamline workflows and focus on higher-value work.

## Award-Winning Security

Protect your Intellectual Property with granular and unique (entropic) encryption, ethical walls management, and data loss prevention policies

# How Can I...?

# Thank You
