

Help your patients use the phone with confidence!

CaptionCall offers two revolutionary, no-cost solutions to help your patients use the telephone with confidence ... the CaptionCall phone and the CaptionCall mobile app for iPad.

Both are FREE to your eligible patients! Both provide amplification, customizable audio settings and smooth scrolling captions that display on a large, easy-to-read screen so your patients can hear and read what their callers say. Both are easy to use and enable your patients to stay socially engaged for a longer, happier, healthier life.

CaptionCall Phone

The CaptionCall phone is the perfect solution to help your patients stay connected with loved ones from the comfort of their own home.

A standard home phone line and Internet connection are required to use this service.

CaptionCall Mobile

CaptionCall Mobile enables your patients to make and receive captioned phone calls from their iPad at home or on the go.

Requires a CaptionCall account, an Apple® iPad® 2 or later, and a Wi-Fi or cellular Internet connection.

GIVE your patients more ... GIVE them CaptionCall!
Visit www.captioncallprovider.com or call 1-877-557-2227 to get started. ▼

Make CaptionCall part of your daily patient offering!

For your patients:

- Free phone with professional certification
- Free captioning service (no monthly bills)
- Free delivery, installation and in-home training
- Using the phone again with confidence

For your practice:

- Refresh your marketing campaigns
- Drive new traffic into your practice
- Re-engage with tested-not-sold patients
- Reduce hearing aid returns due to phone utility
- Increase patient loyalty

Patient Eligibility

Anyone who has trouble hearing on the phone is a good candidate for CaptionCall. There is no predetermined decibel threshold to qualify. Your patients must simply have a hearing loss that, in your professional opinion, necessitates the use of captioned telephone service to communicate effectively by phone.

How Can CaptionCall Be Free?

CaptionCall is funded by a federal program as a provision of the Americans with Disabilities Act, giving individuals with hearing loss access to captioned telephone service at no cost. CaptionCall is an FCC-authorized captioned telephone service provider and is compensated by the federal government for providing this service. The CaptionCall phone is not covered by the federal fund but is offered by CaptionCall at no cost to eligible individuals. There is literally no cost to participate in this program when certification of hearing loss from a hearing-care or healthcare professional is provided.

Order CaptionCall in One Easy Step

Simply complete the Professional Certification Form and send it to us via email at certification@captioncall.com or fax it to 1-888-778-5838. The form is available through your local CaptionCall representative or at www.captioncall.com.

When we receive the form, we will contact your patient to schedule the delivery and installation of a free CaptionCall phone. For assistance with the order process, please call 1-877-557-2227.

No Hassle for Your Practice

As a CaptionCall Provider, there is no inventory to stock or handle, no product support requirements and no contracts to sign. We take care of everything!

Delight your patients with CaptionCall!
