

Live! Connecting People from Jungle to Mountain Top

Fluor Overview

Fluor Corporation is one of the world's largest publicly traded engineering, procurement, construction, maintenance, and project management companies. Over the past century, Fluor, through its operating subsidiaries, has become a trusted global leader by providing exceptional services and technical knowledge. Clients rely on Fluor to deliver world-class solutions that optimize their assets, improve their competitive position, and increase their long-term success.

FLUOR
UNIVERSITY

Fluor University Overview

Fluor University is Fluor's learning organization that provides training and education to support employee development. The resources and tools available through Fluor University give Fluor a competitive advantage in attracting, developing, and retaining employees whose services provide superior value for our customers. Continuous learning is imperative in our business; employee participation in training and development programs enable them to excel in project execution through their exposure to consistent and widespread use of standard Fluor practices.

"Continuous learning is critical to our success as individuals and a company. It helps us constantly raise the bar on performance and build a lasting reputation for excellence."

David Seaton

Fluor Chairman and Chief Executive Officer

Fluor's Video Distance Learning

Fluor currently has three customized classrooms for instructors to teach from Houston, Greenville, and Manila. These classrooms boast advanced technology utilizing video distance learning to transmit instructor-led courses to remote locations worldwide. These classrooms include a studio-style facility designed for interactive instructor-led training for global participants. Fluor University is reaching employees in remote locations around the world such as Afghanistan, Indonesia, and other Fluor project sites.
